# Agenda

- CMAC
- CMAC Component Rates
- Associated Rate Tables (MEPRS Based Rates)
- Mapping Table Updates
- Pharmacy Rates
- Questions

# CMAC Rates - Overview

- CMAC 391 locality is new – for OCONUS
- Added rate for CPT code 90649 “HPV” (\$100.00)
- Added 171 Govt “no-pay” codes to the file
- Added 90 lab/pathology codes/rates
- Removed PET Scan codes (moved them to the CMAC Component file)
- Removed Telephone Consult codes and rates (99371, 99372, 99373)
- Set 40 codes to \$0.00 (not available for separate reimbursement – considered part of the “global procedure”)

# CMAC Emergency Dept (ED) rates

- 99281-99285 will only be used for the institutional portion of an ED encounter
  - Mapped to the UB 04
  - Rates are based on 2007 CMS APC rates
    - Rather than the rates provided in the TMA CMAC files
  - Because of electronic billing requirements (e.g., 837i and 837p), the professional portion of the ED encounter will not be billed
    - Previously we combined the TMA CMAC file rate with the APC rate to obtain a single combined institutional and professional rate
